PROFESSIONAL SUMMARY

Currently a senior in the Department of Business Administration at Fu Jen Catholic University, with a minor in Financial and Economic Law and a Business Taxation Credit Program, expected to graduate in December 2026. Gained practical experience in recruitment, learning and development, HR operations, and project coordination through internships, part-time work, and campus activities. Developed communication, leadership, and cross-functional collaboration skills through various HR and project experiences. With a strong interest in how AI and digital tools can improve HR processes and redesign workflows, I hope to become a cross-disciplinary HR professional who can connect people, business needs, and technology. I am an outgoing, proactive, organized, and adaptable individual, and I plan to pursue graduate studies in related fields to strengthen my ability in in-depth research, evidence-based analysis, validation, and critical thinking.
